

Origo 5100 HeatPal

The All-In-One Cooking & Heating Solution

Origo 5100

The Origo 5100 HeatPal is the ideal all-in-one, electricity-free solution for efficient heating and cooking when no power is available, or for on-the-go recreational activities such as boating or camping.

The HeatPal provides 1500 watts of heating or cooking power, and can boil a liter (34 oz.) of water in 15 minutes. Light the alcohol fuel and leave the cover on to use as a heater, or remove the cover to use as a single-burner stove. A convenient carry handle is included.

Origo alcohol stoves are easy to fill. Each alcohol-fueled container holds 40 oz. (1.2 liters) of alcohol fuel. Pour the fuel into the container where it is absorbed by the non-flammable material inside. A full container provides about four-and-a-half hours of cooking time at the maximum setting, or about 10 hours at normal setting before refilling is required.

Origo units are environmentally friendly and extremely safe. The denatured alcohol-fuel is a clean and renewable energy source, and eliminates the need for fuel lines or gas bottles that could leak or explode. The stainless-steel alcohol fuel containers will not leak if deformed by impact or if turned upside down.

Remove the HeatPal's lid to use as a single-burner stove.

Key Benefits

- Provides 1500 watts of heating power.
- Brings 34 oz. (1 liter) of water to a boil in 15 minutes.
- Small, lightweight, and portable.
- Convenient carry handle.
- Easy access to the alcohol fuel container makes filling simple.
- Full alcohol fuel container provides about 4.5 hours of cooking or heating time.
- Pressure-free alcohol offers a safe way to cook on board.

Technical Specifications for Origo 5100 HeatPal

Model	No. of Burners	Fuel	Cooking Power ⁽¹⁾ (Watts)	Alcohol-Fuel Container Capacity (oz./liters)	Unit Dimensions (in/mm)		
					Height with Lid On	Height with Lid Off	Diameter Ø
Origo 5100	1	Alcohol	1,500	40.0/1.2	11.20/285	5.91/150	11.20/285

Notes:

⁽¹⁾ Cooking time approx. 4.5 hours at maximum setting and 10 hours at normal setting.

Accessory for Origo 5100 HeatPal

Smart Fuel

Dometic provides denatured alcohol (methylated spirits) fuel which burns with no odor or soot deposits. Alcohol fuel is used in combination with Origo's fuel containers (shown above).
