**Deck Plate Key**

Fits most caps: water, fuel, waste

**Un-Snap Canvas Snaps Snap Canvas Snaps**

Handling button snaps made easy, especially on shrunken canvas or corroded snaps

**Zipper Puller**

Tames stiff, sticky or oxidized zippers

**Cutting Tool**

Fishing line, paracord, webbing, cardboard boxes, emergency use

**Hex Wrench**

Popular sizes: 5/16, 3/8, 7/16, and 1/2 inch—plus 8 mm, 10 mm and 13 mm

**Screwdrivers**

Both Phillips and slot

**Scraper**

Removes labels, tape, dry paint

**Pin Shackle Key**

Tightens or loosens pins on most galvanized anchor shackles and stainless steel pin shackles

**Bottle Opener**

Enough said!

**FAQ's**

**Explain the button snap feature.**

Canvas shrinks, snaps corrode and cold fingers don't always grip button snaps well. Button snaps often times don't quite line up like they used to when the canvas was new. One of the button snap tools is designed to grip-n-pull button snaps; the other is designed to pry them apart.

**Explain the zipper pull feature.**

Cold fingers don't always grip zipper pulls well. Zipper slides get harder to pull with age and almost impossible to pull when

the little tab breaks off. The zipper pull feature gives you an extra edge to conquering zippers on canvas, and allows for the operation of broken zipper pulls.

**Is this a powerboat product?**

Yes and no. It's a tool for ALL outdoor markets. This tool fits into MANY more markets and activities than the original Davis Universal Deck plate Key.

**Can the line cutter be re-sharpened?**

Yes. Simply run a file over the backside of the cutting edge.

**Is it still a deck plate key?**

Yes. This key still opens most, if not all deck plate caps made today and yesterday.

**How strong is the Snap Tool Multi-Key?**

We have bent and tested all the deck plate keys we can find and ours is still #1. It is made of hardened 304 stainless steel. It is stronger and thicker than all of the other deck plate keys on the market.
