Star brite Inc., located in Fort Lauderdale, FL

OCEAN BIO-CHEM, INC.

Ocean Bio-Chem, Inc., the parent company of both Star brite, Inc. and Kinpak, Inc is a manufacturer and global distributor of products for the marine, RV, automotive, powersports, health and homecare markets. Founded in 1973, Star brite began as a provider of car polishes, before diversifying into other markets. Headquartered in Fort Lauderdale, Florida, the Company trades on the NASDAQ exchange as OBCI.

The Company's main manufacturing and distribution facility, Kinpak Inc, is located on a 20-acre site in Montgomery, Alabama. The facility's 300,000 sq. ft. manufacturing, blending, packing, and distribution center features a 500,000-gallon tank farm as well as a fully-equipped R&D laboratory and a quality control center that performs quality audits for each phase of the production process.

The plant is equipped with multiple blow-molding machines to produce custom PVC and HDPE bottles in various colors and shapes. There are 12 fully-automated high-speed liquid filling lines, pail lines, drum filling line, bulk load filling lines, plus grease filling lines capable of filling containers from 1 ounce to 55 gallons in size at speeds up to 120 gallons per minute. Finished goods are secured by automatic case packers, case sealers and palletizers. In addition to 18 truck loading docks, the facility has a rail spur capable of handling 20 railcars.

Kinpak also manufactures and distributes numerous private label products.

The Company recently founded Odor Science, LLC, a manufacturer and supplier of EPA-registered disinfectants sold into the health, pet, and agricultural markets under the Performacide® brand name.

Star brite® products are available at Marine, RV, Automotive, Powersports, Farm & Fleet, Hardware, Sporting Goods, and Pet stores worldwide.

STAINS 101

THE SCIENCE OF STAINS

MADE SIMPLE

There are four basic types of stains on your boat, and each is removed using a different technology. Let *Stains 101* be your guide to understanding the science of stains. Discover how to properly identify and remove each of the four basic stains.

It's the science of stains, made simple.

SURFACTANT TECHNOLOGY

TO COMBAT

DIRT & GRIME

THE STAIN

Dirt, grime, gunk, muck. Fish blood, food, drinks. These are your surface stains.

THE SCIENCE

Most surface dirt will wash right off with boat soap and water. However, some gets ground in, especially on non-skid surfaces. That's where surfactants come in. Surfactant molecules fully surround the dirt molecules and lift them from the surface that you're cleaning. This allows them to be washed away with water. Chelating Agents are supercharged surfactants for specialized cleaning.

THE SOLUTION

Star brite Boat Wash will definitely remove most surface dirt. For tough grime and gunk, use a cleaner/degreaser, such as Star brite Xtreme Clean or choose a surfactant based on the surface: Non-Skid Deck Cleaner for non-skid, Vinyl Cleaner for vinyl, etc...

ACID TECHNOLOGY

TO COMBAT

RUST & TANNIC STAINS

THE STAIN

Tree leaves, hull stains, rust stains, waterline stains, hard water stains, orange stains.

THE SCIENCE

Tannins are naturally produced in the decomposition of plant-based matter, and their signature orange-hued stains are dying your hull and fiberglass. Rust stains occur on the fiberglass around metal, where water leaches color from underneath the metal and deposits it on the surface. Removing these stains requires a chemical reaction with an acid.

THE SOLUTION

Star brite Instant Hull Cleaner contains a modified oxalic acid that safely neutralizes tannins and rust. There's much more science behind it but trust us on this one, simply spray or wipe on and watch the stain disappear.

BLEACHING TECHNOLOGY

TO COMBAT

MOLD & MILDEW STAINS

THE STAIN

Black, brown, green, and even pink mold and mildew stains.

THE SCIENCE

Similar to grass stains, these stains are caused by organic material, and need something stronger than a surfactant alone to remove them. The oxygen in a bleaching agent attacks and breaks up these types of stains, and removes any discoloration.

THE SOLUTION

While most people believe that regular chlorine bleach is the answer, it also causes a lot of problems, such as breaking down fabrics and stitching and destroying gelcoats. Instead use Star brite Mildew Stain Remover—a buffered bleach formula—that attacks the stain without harming the surface.

ABRASION TECHNOLOGY

TO COMBAT

SCUFF MARKS

THE STAIN

Black shoe marks, rub rail and bumper scuffs, marks left from dragging hoses and equipment.

THE SCIENCE

Scuff marks—or “transfer stains”—happen when material is transferred onto a surface and is mechanically bonded. Chemicals are rarely strong enough to remove these marks, since many times the material that has transferred is chemical-resistant (think of a rubber shoe). These abrasive marks require the same to remove them: abrasion.

THE SOLUTION

Star brite Ultimate Magic Sponge uses nano-sized scrubbers to grab hold and erase most marks easily. For your hull, use Premium Cleaner Wax to buff the stain away.

Star brite's **ULTIMATE LUBRICATING FLUID** combines super-slick **CERFLON®** technology with moisture-repelling Lanolin to create the ultimate in lubrication, corrosion prevention, and penetration.

Ultimate Lubricating Fluid works by forming a micro-thin film that "seals" the treated surface for long-lasting lubrication and protection against corrosion and buildup. **CERFLON®** nanoparticles bond to all metal parts to prevent grass, dirt, hay, snow, ice, dirt and more from adhering, as well as unsurpassed lubricity. The non-conductive, dielectric formula is also ideal for forming a barrier against moisture and corrosion on battery terminals, junction blocks and wiring. Simply spray Ultimate Lubricating Fluid onto a metal surface to penetrate deep, loosening frozen bolts, displacing moisture, and preventing further corrosion of rusted surfaces.

- Durable die-cast zinc construction & heavy-duty spring
- Can be used with other couplers or extension hoses

ANTI-SEIZE THREAD LUBRICANT

NUMBER 86302 **SIZE** 2 oz. **CASE PACK** 12

- Prevents seizing and galling of all types of threads
- Makes removal of screws and bolts quick and easy
- Great for spark plugs and propeller shafts
- Brush applicator cap

OIL FILTER WRENCH

NUMBER	SIZE	CASE PACK	
28901	2 7/8" - 3 3/8"	12	✓
28902	3 3/8" - 3 3/4"	12	✓

- For 2 7/8" - 3 3/8" diameter and 3 3/8" - 3 3/4" diameter filters
- Swivel handle for use in confined areas.

SNAP & ZIPPER LUBRICANT

NUMBER	SIZE	CASE PACK	
89102	1.75 oz.	12	✓

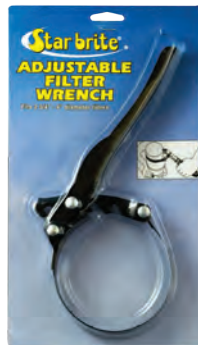

- Use on boat snaps, metal and plastic zippers to protect against corrosion, reduce wear and friction, prevent binding and repel salt spray deposits
- Non-toxic, non-staining
- Will not wash off
- Protects from -65°F to +650°F

ADJUSTABLE FILTER WRENCH

NUMBER	SIZE	CASE PACK	
28908	2 3/4" - 4"	6	✓

- Fits canister filters from 2 3/4" to 4" diameter
- Oversized handle for maximum torque
- Easy to use; compact size

TRAILER HITCH LUBRICANT

NUMBER	SIZE	CASE PACK	
85804	4 oz.	12	

- The best protection for trailer hitches
- Impervious to fresh or salt water
- Protects from -65°F to +650°F
- Super adhesion – will not wash off or break down
- Non-toxic, non-staining

MARINE FORMULA WHITE LUBRICANT

NUMBER	SIZE	CASE PACK	
85504	4 oz.	12	✓

- Special polymer formula will not wash off
- Protects from -65°F to +650°F
- Reduces wear and friction
- The ultimate lubricant – exceeds performance of normal grease
- Non-toxic, non-staining
- Great on zippers, winches, etc.

MAXI BOOM BILGE OIL ABSORBER

NUMBER	SIZE	CASE PACK	
86805	5" X 18"	12	✓

- Absorbs oil/fuel in the bilge so that remaining water may be pumped overboard
- Convenient tie downs keep booms in place
- Special design allows maximum absorption
- Absorbs 2 quarts of hydrocarbons

LIQUID GASKET

NUMBER	SIZE	CASE PACK	
82910	2.8 fl. oz.	12	

- Makes gaskets quickly, easily
- For use up to +600°F
- Unaffected by oil
- Noncorrosive formula - safe for use on all metals
- Eliminates need to carry many different types and sizes of gaskets

BULK BILGE PADS

- Can be wrung out and re-used
- Ideal for wrapping fuel nozzle to prevent refueling spills

PRO Star LPC MULTIFUNCTIONAL DIESEL FUEL ADDITIVE LUBRICITY ENHANCER • POUR POINT DEPRESSANT • CETANE BOOSTER

NUMBER	SIZE	CASE PACK
95500	1 Gallon	4

Star brite's Pro Star LPC addresses the three most common diesel fuel issues: lubricity, pour point and cetane levels. It enhances engine performance by increasing cetane levels while the lubricity agents help protect against excessive wear. The pour point depressant lowers the fuel's pour point by as much as 30°F, making it ideal for low temperature applications.

When used with Star Tron® Diesel Enzyme Fuel Treatment, it is the best way to immediately improve fuel quality and engine performance.

- Improves diesel fuel in 3 ways: enhances lubricity; lowers pour point by as much as 30°F for cold weather use; boosts cetane level
- 1 Gallon treats 768 gallons of diesel fuel
- For use in all diesel engines
- Ideal for use with Star Tron® Diesel Formula Enzyme Fuel Treatment

DIESEL WATER ABSORBER

NUMBER	SIZE	CASE PACK
84616	16 fl. oz.	12

- Removes free water from diesel fuel and allows it to be safely burned away
- Prevents corrosion of fuel delivery system
- Protects diesel fuel injectors
- Eliminates repairs due to water damage
- 16 fl. oz. treats up to 275 gallons of diesel fuel

5-GALLON PAIL PUMP

NUMBER	CASE PACK
27405	1

- Designed to quickly transfer heavier lubricating oils
- Allows lubrication of lower units directly from 5-gallon pail
- Sturdy construction for years of reliable service life
- Contains a 96" hose with a 3/8"-16 threaded fitting

DESCALING ENGINE FLUSH

NUMBER	SIZE	CASE PACK
92600	1 Gallon	4

- Removes scale from all marine engines
- Allows engines to run cooler and more efficiently
- Will not damage engine seals, gaskets or rubber impellers
- When used with Star brite® Marine Engine Descaling Kit (# 35001), your engine can be treated with the boat right on the trailer

3 PIECE FUNNEL SET

NUMBER	CASE PACK

- Protects cast iron, aluminum, steel, brass, copper and solder
- Yellow in color • Contains Bitrex®

Star brite® worked with the world's leading formulators of coolant additives to develop a product that significantly outperforms traditional coolants and helps engines develop maximum horsepower. Star Cool® combines an essentially non-toxic propylene glycol base with unique poly organic additives (POAT) to create the most technologically advanced engine coolant.

Star Cool® is the best choice for all high-performance engines. With a service life of up to 2+ years, 250,000 miles or 4,000 hours in gasoline engines (750,000 miles, 7+ years or 12,500 hours in diesel engines) it goes significantly beyond all OEM specifications. Star Cool® passivates metal surfaces to create a barrier to corrosion and will seal pinhole leaks or small cracks. Pre-mixed with de-ionized water, it is ready to use and safe for all water-cooled gas or diesel-powered engines. Star Cool® is ideal for year-round use; protecting against boilover to 265°F and freezing to -26°F (with 15 psi cap).

STAR COOL® HIGH PERFORMANCE SYNTHETIC ENGINE COOLANT – 50/50 READY-TO-USE

NUMBER	SIZE	CASE PACK	
33264	64 fl. oz.	4

WHAT IS STAR TRON®?

Star Tron is a unique, multifunctional fuel additive that solves most fuel issues, including those related to ethanol blended fuels. Star Tron has been solving fuel problems in engines across the US since 2003. It will improve the performance of all boats, cars, trucks, motorcycles, snowmobiles, ATVs, PWCs, generators, lawn & garden equipment. Star Tron is safe for use in all gasoline-powered engines under all conditions, Star Tron is an ideal all-season, all-purpose additive, and does all this at one of the lowest costs per liter of any fuel additive.

Be careful of what additive you use – many contain alcohol. Adding more alcohol to ethanol fuels can lead to engine problems. Read the MSDS of any fuel additive before using it with ethanol fuel. Star Tron does not contain any alcohol or other emulsifiers, and is 100% safe for use in all ethanol blends from E5 to E85. Star Tron is easy to use, effective and cannot be overdosed.

FUEL 101: WHAT YOU NEED TO KNOW ABOUT MAINTAINING FUEL QUALITY

COMMON FUEL PROBLEMS OF GASOLINE AND ETHANOL-BLENDED FUEL

Star Tron Enzyme Fuel Treatment has been improving fuel quality in the US and Canada for more than 10 years, and is now available in Europe. A true multifunction fuel treatment, Star Tron will improve the performance and reliability of all engines.

PROBLEM 1: FUEL STABILITY AND DEBRIS IN FUEL AND FUEL SYSTEMS

Fuel intended to be used for 30 days or longer after purchase needs to be stabilized. As fuel ages it can form harmful gums and other solids that leave deposits throughout the fuel system. Carburetors, fuel pumps, injectors and the fuel tanks become gummed which makes the engine run poorly and hard to start, resulting in engine knock, lost performance, and rough idle. It is especially important to stabilize ethanol/gasoline blends which degrade much faster than traditional gasoline.

STAR TRON SOLUTION: Star Tron is a powerful fuel stabilizer which helps prevent fuel breakdown for up to two years. This results in easier starts, more power and prevents pinging and knocking. Star Tron improves octane levels of sub-standard, non-spec or old fuel. In many cases, Star Tron can rejuvenate stale fuel, restoring it to serviceable condition. Star Tron's enzymes break down gum and other debris into sub-micron sized particles that can be dispersed throughout the fuel and easily "burned" during the combustion process, restoring full performance and fuel efficiency.

PROBLEM 2: WATER IN FUEL

Water in fuel will degrade combustion, affect the octane level and can cause damage to internal components such as fuel pumps and injectors. As the amount of water in the fuel increases, engines begin to run rough or even stall. Ethanol fuel is even more likely to be affected because alcohol naturally attracts water from the atmosphere. Water in fuel can lead to phase separation when water and ethanol form a chemical bond and fall to the bottom of the fuel tank.

STAR TRON SOLUTION: Star Tron's enzyme formula treats water by reducing the surface tension between fuel and water, reducing the size of the molecular water clusters. This allows more water to be dispersed throughout the fuel as sub-micron sized droplets that can be safely eliminated as the engine operates. Star Tron-treated fuel allows more water to be burned off than with untreated fuel, drying out the tank and preventing water buildup.

PROBLEM 3: DECREASED POWER AND PERFORMANCE

Today's fuels have been designed to burn very cleanly, but at the expense of power and performance. The same ingredients used to improve emissions and control corrosion have some negative effects; less combustibility, decreased fuel economy and shorter shelf life. These effects are worse in ethanol blended fuels.

STAR TRON SOLUTION: Star Tron's enzyme formula helps to break apart large clusters of fuel molecules, creating more surface area. This allows additional oxygen to react during combustion, which results in a more complete burn of the fuel, improved fuel economy, engine power, throttle response and reduced toxic emissions. Star Tron removes carbon deposits, keeping your engine clean and operating at peak performance.

SATISFACTION GUARANTEED
ROAD TESTED

All Sta-Put tie downs and straps are sewn and assembled in the USA, using the best components available. They feature heavy-duty webbing, extremely durable hooks and high-efficiency buckles and ratchets. As the manufacturer, we can produce custom color, length, width or hardware options, in addition to a wide range of production tie downs and straps.

We also offer custom embroidery on our straps, digitizing customer logos into a crisp, four-color design that is then sewn into the webbing.
